

**This is a copy of the Request for Further Information (RFI) requested by EPA on 27 April 2022**

**Applicant:** Cement Australia Pty Ltd

**Activity site:** 353-467 Lorimer Street, Port Melbourne, 3207

**Application:** APP007913

**Our Ref:** RFI002031

**Summary of Request:**

Submissions

1. Please provide EPA with responses to the issues or concerns raised in the 2 submissions which are attached to this notice.

**Request Detail:**

Please provide EPA with responses to the issues raised in submissions from: City of Port Phillip and Department of Jobs, Precincts and Regions who outline the following concerns:-

1. Please provide information to support the Noise, Vibration and Air Quality studies undertaken are sufficient to address the relevant existing and future sensitive interfaces, particularly those nearest in the Fishermans Bend Wirraway Precinct.
2. Please provide a proposed plan to show how operations will comply with EPA Noise Protocol, Including ongoing noise monitoring and proposed site controls.
3. Please provide information to support how proposed development will ameliorate concerns with regards to increased truck movements and potential impacts. In particular within Fishermans Bend area, use of local roads and access to Westgate freeway.
