

Waste record template for drivers and receivers

Publication F1020.2* October 2021. This replaces form F1020.1 published July 2021.

Before you can use this form, a waste record must already exist within Waste Tracker. When you can't connect to Waste Tracker, use this form to record information and enter it into Waste Tracker when you have access again. Please contact EPA if you are unsure whether a waste record already exists.
