Corrections to my Dual Gas Witness Statement

I have noted a number of errors in my Dual Gas witness statement (dated 22 September 2011) which should be corrected, as set out below:

Section 2.1, first paragraph, penultimate line – replace “Schedule E” with “Schedule D”.

Section 2.1, second paragraph: – replace “Schedule F” with “Schedule E”.

Section 2.4, table on page 9 under “SEPP (AAQ) provisions”: – Sulphur dioxide (maximum concentration) for 1 year averaging period should read “0.02 (0.05)”, replacing “0.08 (0.05)”.

Section 3.3.1, third dot point, second line: delete “elevated”.

Section 3.3.1, fourth dot point, last line: delete “elevated”.

Section 3.4.1, third paragraph: delete second dot point (“commencing “peak SO₂ concentrations in the LV - -“).

I apologise for these errors which do not, however, affect any of my conclusions.

Terry Bellair
