

Timber Production on Public Land 2004

EPA Publication 969

ERRATA

A clerical error has led to reporting of the overall coupe score as being 92%, rather than the actual score of 90%. This error arose from inadvertent exclusion of the numerator for coupe C1 from the calculation of the overall coupe score.

This resulted in the calculation: $2363 / 2557 = 92\%$;
where it should have been: $2363 / 2618 = 90\%$.

This clerical error has a bearing on the reported overall coupe score only. It has not affected individual coupe or focus area scores, nor has it affected any conclusions or recommendations made in the report. Resultant errata and correct text are listed below.

ERRATA

Page 4: fourth line from bottom, left column.

Change **92 per cent** to **90 per cent**.

Page 18: second line from bottom, right column.

Change **92 per cent** to **90 per cent**.

Page 55: sixth line from top, right column.

Change **92 per cent** to **90 per cent**.

Appendix K: first row.

Change **92%** to **90%**.

Appendix K: second column, last row

Change **68 / 73 = 92%** to **68 / 75 = 90%**.
