

Greenhouse Gas Emissions Disclosure Pilot

Combined participant's emission reports

Greenhouse gas emissions reports by facility 2004-2005

Notes:

- Data is measured in carbon dioxide equivalent (CO₂-e)
- All the data available on this page has been provided by the reporting companies.
- *The base year is determined by each reporter on the basis of their historical records.
- Total direct emissions from the electricity generation sector cannot be added to total indirect emissions for other sectors as this may be double counting.

Facility	Emissions (tonnes/year)		Emissions reductions achieved (tonnes/year)		Base year*
	Direct	Indirect	Current reporting year	Cumulative from base year*	
ALBRIGHT & WILSON (AUST) LTD-Yarraville Facility	17,424	10,262	0	10	2003
